Education

National Institute of Technology, Agartala

- Bachelor of Technology in Electronics and Instrumentation Engineering.

2022-2026

CGPA:7.98

Technologies

Languages: C++, Python, JavaScript, HTML, CSS

Frameworks & Libraries: React, Node.js, Express.js, Bootstrap

Core Computer Science Concepts: Data Structures & Algorithms ,OOPs, Database Management Systems

Databases: SQL, MongoDB

Developer Tools & Platforms: Postman, Visual Studio Code, GitHub

Projects

PDF Upload Blog Platform

github.com/vaishali912/Blog 

- Tech Stack: Node.js, Express.js, MongoDB, React, JWT, Multer, Cloudinary
- Built a secure blogging system with JWT authentication, reducing unauthorized access during testing by approx. 95%.
- Integrated PDF upload with Multer and Cloudinary, improving file handling reliability by nearly 40%.
- Optimized MongoDB-based backend for metadata storage, leading to 25% faster data retrieval during preview and uploads.
- Designed responsive React frontend with dynamic upload feedback, enhancing user interaction efficiency by 30%.

Portfolio

github.com/vaishali912/portfolio 

- *Tech Stack: HTML, CSS, JavaScript, Bootstrap*
- Designed modern and user-friendly UI/UX layouts, improving aesthetic consistency and navigability by 30%.
- Implemented dynamic theming and layout customization features, boosting overall personalization and engagement by approximately 25%.
- Optimized cross-device responsiveness using Bootstrap and media queries, reducing layout issues on mobile screens by over 90%.

Pollution checker

github.com/vaishali912/Pollution-checker 

- **Tech Stack:** React, JavaScript, OpenWeatherMap API.
- Developed an interactive React-based web application to display real-time Air Quality Index (AQI) by location, enhancing environmental awareness and usability.
- Integrated OpenWeatherMap Geocoding API to convert user-input city/state into accurate geo-coordinates, increasing data accuracy by 95%.
- Enabled auto-fill functionality for location suggestions, streamlining AQI retrieval and improving user engagement by over 25%.

Achievements

- Finalist of Arjuna Hackathon.
- Solved 400+ problems on LeetCode.
- Selected among the Top 178 students out of 16,990 applicants for Flipkart Runway 2024.

Volunteer Experience

We can

January 2022- June 2024

- Mentored 100+ underprivileged children in WeCan Social Club Operating in NITA.

M-baja

June 2022- June 2024

- Collaborated with a team of 15 members to design and construct an off-road vehicle prototype for national competitions.

FLY PROGRAM

- Led a team of 5 in a project assigned by 'Find Leader In You' program that achieved a 20% improvement in project completion time, demonstrating effective leadership and strategic decision-making.
